MAKING IT COUNT
Using real-time data to strengthen public health systems

Paul Pronyk &
I Made Suwancita

UNICEF Indonesia

unicef
for every child

WHAT IS REAL-TIME DATA?

- *Information that is delivered immediately after collection*
- *Used to 'target' interventions, and visualize patterns and trends*

PUBLIC HEALTH

ADMINISTRATIVE DATA ← → HOUSEHOLD SURVEY DATA

15+ household & facility surveys

**COMPLEX
FRAGMENTED
DIFFERENT MINISTRIES
LITTLE FEEDBACK**
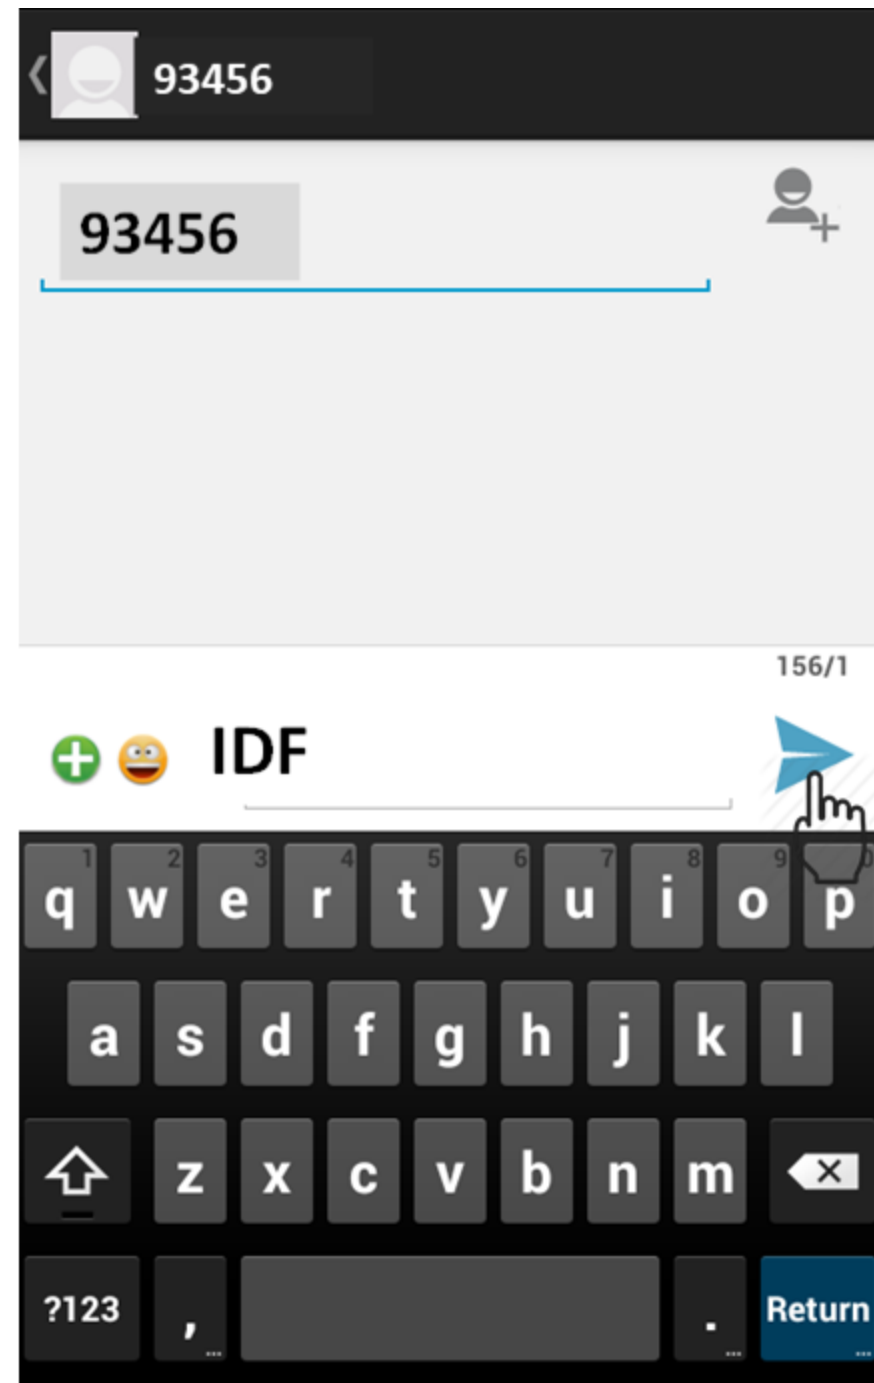

DELAYS

*Available months
after collection*

*Available > year
after collection*

NOT USED FOR IMMEDIATE PROBLEM SOLVING
