Human activity is much depended on transportation. Infrastructure development becomes very crucial for community, especially transportation.

Trans Mentawai development program, will be covered 316,20 kilometers of Siberut, North Pagai and South Pagai.

But If Infrastructure Development Will Be Implemented In Mentawai, What About Social And Ecological Conditions?

To tackle disparities across Indonesia, government should provide proper infrastructure for all region and districts in Indonesia.

Not only focusing on eastern part of Indonesia, but also developing the western part as one of the potential region in the future.
