Indonesia Development Forum 2017

Fighting Inequality for Better Growth

Jakarta, 9-10 August 2017
INEQUALITY & SOCIAL PROTECTION

Alessandra Heinemann
OECD Development Centre
Jakarta, 9 August, 2017
Income inequality remains historically high in the OECD
Redistribution decreased in a majority of countries since 2010

Percentage reduction of market income inequality due to transfers and taxes, 2007 - 14 (or latest year), working-age population
Taxes are back at pre-crisis levels while transfers stagnate.
Policy Priorities

1. **Re-design our tax systems to reduce inequality and promote inclusive growth**

2. **Focus on early childhood development**

3. **Enhance dynamism in the business sector to the benefit of young firms and SMEs**
