# OUTLINE

**Overview of Jakarta**

**Sustainability of Jakarta**

**What have been Done for a More Resilient Jakarta**

# Overview of Jakarta

Jakarta exists both as the capital of Indonesia and as an autonomous province

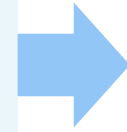

The largest city in South East Asia with estimated population of over **10.1** million as of 2015

Situated at the delta of 13 rivers; **40%** of land lies below sea level – susceptibility to urban floods and environmental issues

# Sustainability of Jakarta

Livable &  
Sustainable City

Resilient City

- **Resilience** is about the ability of complex systems to function when faced with disruptive circumstances
- A city's ability to maintain essential functions is threatened by both **acute shocks** and **chronic stresses**
