Global Competitiveness

- Who Are We?
- How to build this Nation
- Spirit of Nation
- Leadership

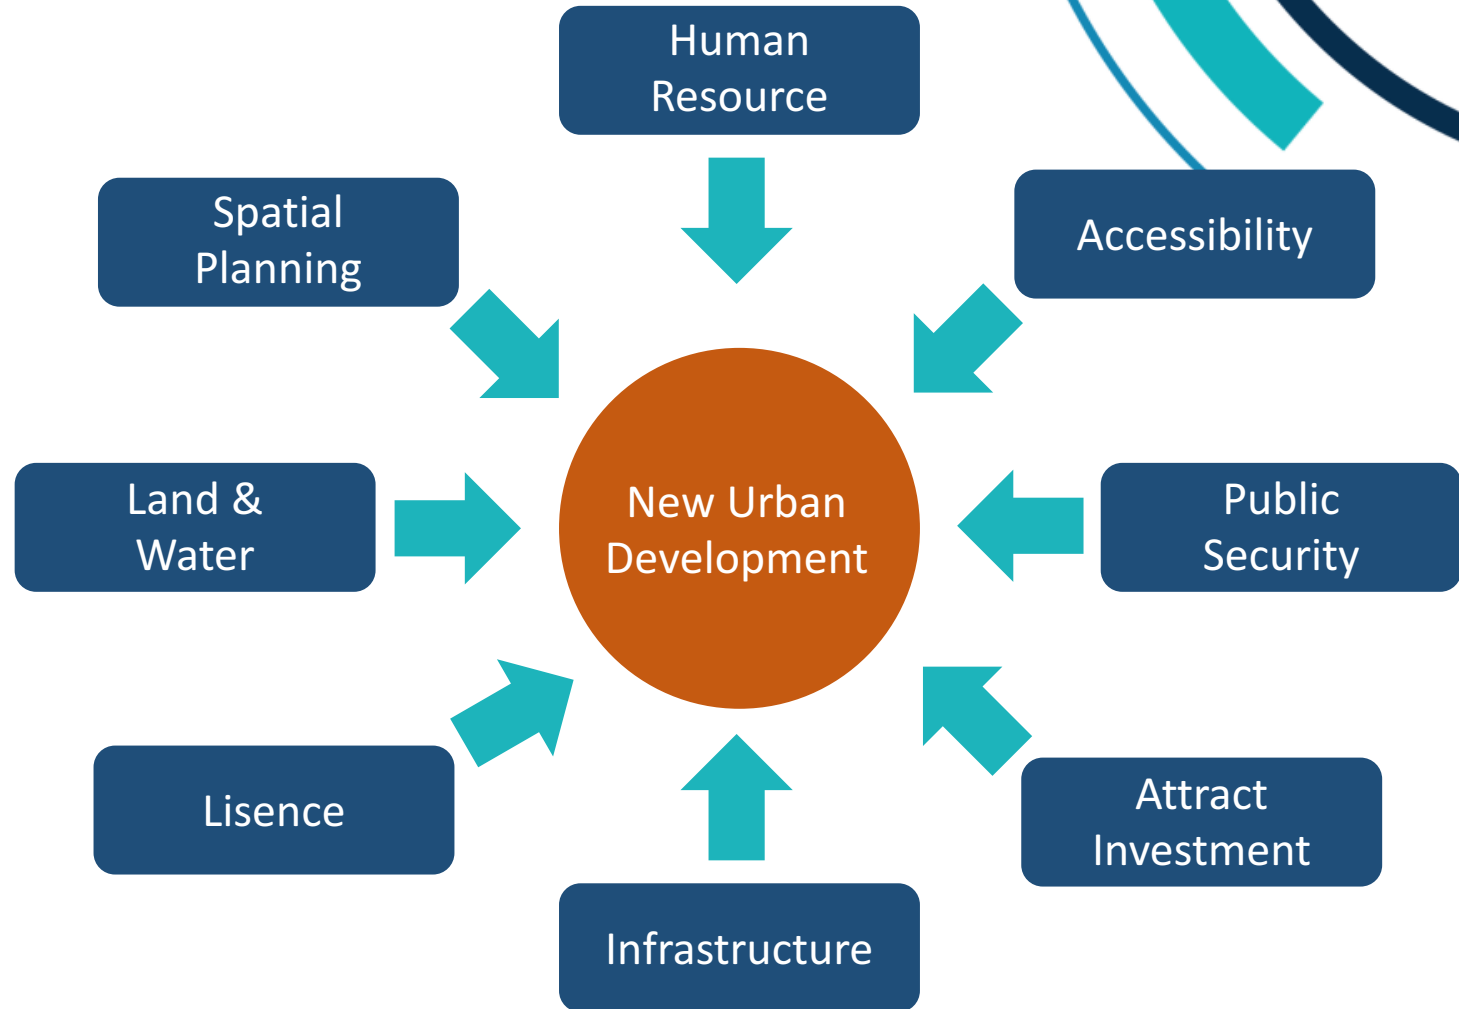

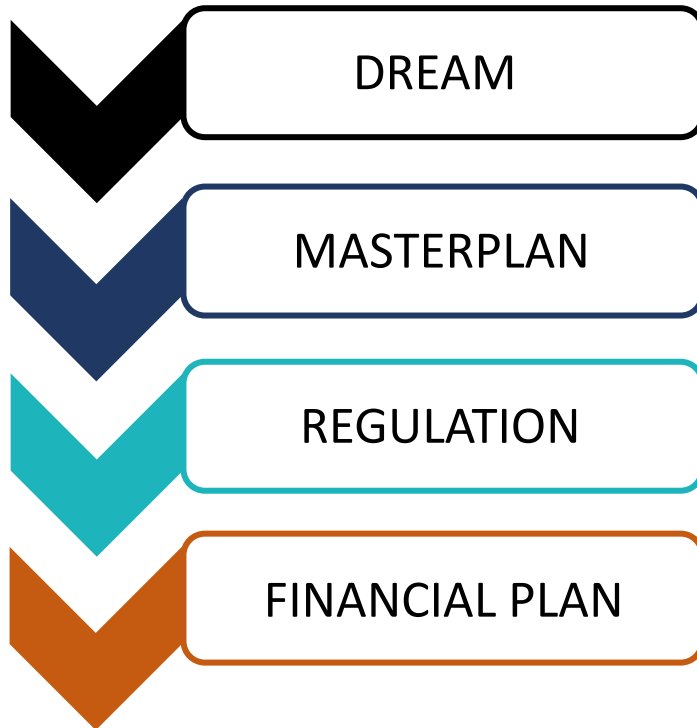

JABABEKA & CO.

“ Indonesian position can be compete in global competitiveness ”

Key Factor

“ If the population capacity of Java Island is planned to **300 million people**, the density is only **2300 person per Sq km** ”

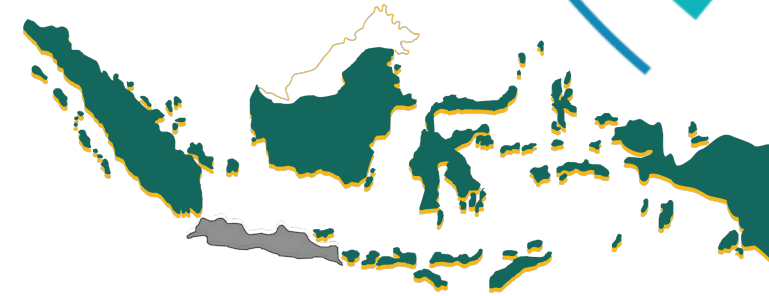

Quick Win Strategy for Development in Java and Outside Java Island

JAVA ISLAND

- Optimization of abundant human resources (demographic bonus)
- Optimization and spatial arrangement
- Comparison with Singapore

OUTSIDE JAVA ISLAND

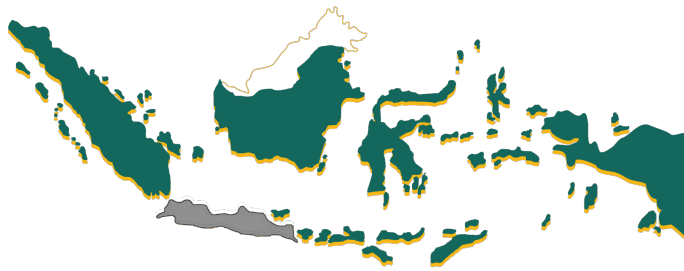

- Attract the actors of large-scale economic activities (anchor investors)
- Creating the synergy between State Owned and private sector
- Creating the synergy of ABG (Academic – Businessman – Government)
- Creating integration between Economic – Infrastructure – Logistic – Human Resources
- Creating new cities in the region as a new economic revival (Education City, Agro City, Tourism City, Maritime City, etc.)
- Incentives support and different facilities with Java and other more competitive countries

	Java Island	Singapore
Area	129,700 sq km	718.3 sq km
Population	160 Million people	5 Million people
Density	1,317 persons per sq km	8,049 persons per sq km

The Challenge of Building Outside Java Island

-  Change the regulation
-  Preparation of pro investment's human resources
-  Political stability and regional security
-  Legal certainty and investment business climate
-  Communication, Collaboration, & Networking to create new Market
